

# SmartSource Check Scanner

If you use the SmartSource® Check Scanner and want to print an endorsement line on the back of a check, you must follow these steps.

## Set up to Print an Endorsement Line

✔ Before starting, make sure your ink cartridge is in place.

To set up the SmartSource scanner to print an endorsement line:

1. Click **Start** and then click **Computer**.
2. Go to **C:\program files\cpil\scanner files**.
3. Double click on the **scanner.exe.config** file.
4. On line `<add key="Endorse" value="N"/>` Change **N** to **Y**.
5. Replace **METABANK** `<add key="LocalEndorseText" value="METABANK "/>` with the endorsement line you need.
