

Enable the MICRImage Check Scanner

If you have a Magtek® MICRImage™ scanner, you can scan checks into your billing data.

Useful Information

To purchase a MICRImage scanner, visit our [online store](#).

1. On the Home screen, click **Options**.
2. In the left sidebar, click **Settings**.
3. Under Check Scanner Settings, select the **Enable Scanner** check box.
4. In the Communication Port (COM) drop-down list, select the port you want.
5. To test the connection with the selected port, click **Test Port Connection**.
